New Orleans, June II.—The price of cotton was forced hiraer to-day by steady buying of the new crops for long account. This movement was stimulated by a private bureau report on conditions, showing a loss in the last fortnight of 2.3 points. Bitter criticism of this report came from the bear side, but it had its effect just the same. At its best, the market was nine to thirteen points up. The close was at a net gain of two to ten points, July showing the smallest gain.
